# MONTHLY LUNCH AND LEARN: WORKERS' COMP/HR/SAFETY

## Decisions - Things that Challenge Us to Make the Safest Choice

The majority of injuries are the result of unsafe acts rather than unsafe conditions. We will explore ideas that address the behaviors and choices that we all make in our work and home life. The human behaviors that challenge us to make the safest choices will be discussed as well as ideas for helping to understand why these choices are made and ways we can change these behaviors.

**\*This class counts towards ABC Retro Members' 4 Retro Meeting Requirements\***

**Lunch will be served and everyone is welcome!**
